WEATHER PACK CONNECTOR

*Please see Instruction Sheet for
ELUC2SØ1Ø(x) for Technical Specifications
and Illustrations*

Important Information:

- DO NOT cut the wires between in-line flasher and light head
- Warning devices are strictly regulated and governed by Federal, State and Municipal ordinances. These devices shall be used ONLY on approved vehicles. It is the sole responsibility of the user of these devices to ensure compliance.
- DO NOT install this product or route any wires in the Air Bag Deployment Zone. Refer to your vehicle Owner's Manual for the location of any air bag deployment zones.
- DO NOT connect this device to a strobe power supply. This product is self-contained and does not require an external strobe power supply.

INSTALLATION INSTRUCTIONS

Your WALUC2ØØ1(x)-WP is identical to the ELUC2SØ1Ø(x) UNIVERSAL UNDERCOVER™ LED INSERT with the exception of the connecting cable (shown at left). The cable is 18" long and exits from the flasher (not shown) and the lack of the GREEN wire which would normally be used for CRUISE mode. The GREEN wire is sealed inside the cable and may be used at some future date if desired.

Follow the instructions for the installation of the ELUC2SØ1Ø(x).

The female Weather Pack connector (customer supplied) is installed in the male connector shown with the wire color assignments shown below. Make certain that wire colors are mated and that connector is fully engaged.

WIRE CONNECTIONS (for WALUC2Ø1Ø(x)-WP ONLY)

WIRE HOOK-UP TABLE	
WIRE COLOR:	CONNECT TO:
RED	+ 10-16Vdc
BLACK	Ground (-)
WHITE	Pattern Select/Sync

! WARNING-HOT!

This product must be mounted with sufficient clearance from any plastic parts. Failure to do so may result in permanent damage to the housing.

! WARNING

This product contains high intensity LED devices. To prevent eye damage, DO NOT stare into the light beam at close range.
